ÉTÉ-HIVER 2017-18
L’AVENTURE COMMENCE ICI...
BASE CAMP WALKING & SCENERY

“Walk the Fiz, trail walking with the family.”

Fabulous scenery... wide open spaces to explore!

Plaine-Joux is the ideal starting point for setting out on a whole range of walks and hikes in the nature reserve to discover its flora and fauna. It also offers one of the most beautiful views of Mont-Blanc.

**OUR FAVOURITE**

- **WALKING THE FIZ**

With so much variety in the scenery here, and the ever-present background of Mont-Blanc, the Fiz range is great walking country. Choose your own route. Go on a 2 to 7-day trek, follow a “family” path. Starting from Passy Plaine-Joux, set out to discover the 9 refuges dotted along this range.

If you want to “walk the Fiz”, book on: reservation@passy-mont-blanc.com
Tel. +33 (0)4 50 58 80 52

- **LAC VERT, A LISTED NATURE SITE**

Very easy to get to from Plaine-Joux, you’ll see Mont-Blanc perfectly mirrored in this lake’s emerald green waters.

- **MOUNTAIN LAKES**

The Fiz Trail takes you past two stretches of water: the wild Anterne Lake and Lake Pormenaz with its island.

- **CASCADE DE CHEDDE**

Formed by a torrent, this waterfall is nicknamed the “Heart Waterfall”. You can admire its impressive heart of stone from the promontory.

- **MAISON DE L’RÉSERVE NATURELLE DE PASSY**

The visitor centre offers a fun way to learn about the landscapes, history, flora and fauna of the Passy nature reserve in particular and of the Alps in general. Outdoor activities for the general public and groups.

Unrestricted access during school holidays:
- Spring and Oct. holidays: weekends, 1pm to 6.30pm
- July-Aug: Wednesday to Sunday, 1pm to 6.30pm
- Christmas: Tuesday to Sunday, 1pm to 5.30pm

- **PASSY NATURE RESERVE**

Remarkably diverse, the flora and fauna are exceptional here. Although this habitat is largely populated by our friends the marmots, ibexes, chamois and black grouse, look up at the sky and perhaps you’ll catch a glimpse of the lord of the mountains: the bearded vulture...

- **DÉSERT DE PLATÉ, A PROTECTED AREA (1998)**

This stone fortress is the largest “lapiaz” (limestone plateau) in Europe. You can reach this lunar site along the walking trails starting from Passy.

“Internationally-famous treasures in grandiose scenery!”

The finest pages in history, art and architecture have been written in Passy in fabulous mountain scenery set against the sun-drenched hillsides of the Fiz range facing Mont-Blanc.

The density and diversity on offer here give Passy a very special vocation, as a centre for cultural holidays.

LE PLATEAU D’ASSY, A CULTURAL HUB:

20th century art & architecture. The town’s high-altitude plateaux were chosen as the site for one of Europe’s largest health resorts. The town boasts a number of revolutionary architectural designs, some modern art and several contemporary sculptures.

- Notre-Dame-de-Toute-Grâce: This church reflects the revival of religious art in the 20th century, with masterpieces by some of the greatest masters of modern art: Rouault, Bonnard, Lurçat, Richier, Bazaine, Braque, Matisse, Leger, Chagall, Lipchitz, Signori… (Historic monument, “20th-century heritage” accreditation).

- Modern architecture, an outstanding healthcare complex (1926-1937) Filled with fresh air, light and views of the surrounding countryside, the old sanatoriums reflect the very best of 20th-century architecture (Historic monument, “20th-century heritage” accreditation).

www.passy-culture.com
www.caue74.fr/ressource/architecture/

CHEDDE:
An example of how waterfalls turned a rural hamlet into a workers’ housing development.

- L’église St-Joseph: an example of 1930s religious architecture (Art Deco stained glass windows and mosaics).

- L’habitat des Nids & Jardins (housing designed by Henry Jacques Le Même).

PASSY, LES PLAGNES AND THE HILLSIDES:
An invitation to step back in time and see traditional mountain architecture as well as Baroque and Neo-Classical design. The church dedicated to St. Peter and St. Paul takes you on an extraordinary trip through history from Roman times to the present day (the furnishings are listed).

ON THE HILLSIDE:
- Contemporary sculpture trail: A large open-air museum with a dozen huge works by sculptors such as Calder, Féraud, Semser, Cardenas, Gandy Arf agas, Gosselin, Roussi, Brunelli, Cossin...

PATH ALONG THE BANKS OF THE ARVE:
A riverbank trail that explains the natural, mechanical and artistic benefits of alpine water (interpretive trail with details of the mountain environment and hydroelectricity, as well as a maze and modern sculptures by Basserade, Friedmann and Lerat).
